Art Unit: 1745

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by Singh *et al.* (US 4,898,792).

Singh *et al.* disclose a solid oxide fuel cell stack assembly (30) including a cell stack enclosure (44) that encloses the stack, and which include a reactant intake means (48) and reactant outlet means (39) that pass the reactant to the stack. Being located adjacent to, but spaced from the fuel cell stack (figure 2), the enclosure would to some extent receive radiant heat from the stack.

Claims 16-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Neither Singh *et al.* nor the other prior art of record discloses a solid oxide fuel cell stack assembly with a three layered chambered enclosure that accepts radiant heat from the fuel cell stack.

Claims 8-14, for reasons of record, are allowed. These claims were objected to in the previous office action, page 3. Claim 8 is now independent.

Copies of the previously submitted forms PTO-1449 are enclosed, since the examiner's initials were mistakenly omitted on these forms mailed with the previous office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Kalafut whose telephone number is 571-272-1286. The examiner can normally be reached on Mon-Fri 8:00 am-4:30 pm.
